New York Stock Market.
 New York, June 3. Lower cables from London and the failure of American securities there had a tendency to demoralize the local stock market at the opening this morning. Prices in the first few minutes dropped sharply where from 1 to 1 1/2 per cent. Chicago Gas and Louisville and Nashville led for the downward movement. The decline in the former was accompanied by a further financial complication at the west. Soon after the opening, however, a recovery took place, and the market closed at a profit of 1 to 1 1/2 per cent. The market was firm, with a few exceptions.
